ELEY KISHIMOTO

Introducing Eley Kishimoto for Kirkby Design

Working in collaboration with British interiors brand Kirkby Design, London print and fashion studio Eley Kishimoto have developed original artwork from which 12 high quality woven textile designs and intricate prints have been produced, alongside a coordinating collection of multi-textural wallcoverings and a complementary range of ready-made cushions.

Harnessing their expertise in weave, print and colour, Kirkby Design have worked with Eley Kishimoto to masterfully adapt original drawings, experimenting with exciting techniques to create a unique aesthetic, pushing both brands into a completely new realm of creative expression.

Channelling the confidence of 1970s design whilst simultaneously bringing an original modern twist, this unique collection of luxury fabrics and wallcoverings is as bold and graphic as it is tactile and sophisticated. The quintessentially playful style of Eley Kishimoto has been expertly translated by Kirkby Design into intricately woven jacquards, épingle weaves and eye-catching printed velvets as well as shimmering, reflective and flocked wallcoverings.

—

“The collection has an overriding feeling of nostalgia, not saying that it looks vintage, but the emotional provocation it creates is sure to stimulate the creative ideals of anyone who sees it.”

Mark Eley – Eley Kishimoto

“A collaboration in its truest sense; we have challenged each other technically and stylistically, pushing the boundaries as to what we can achieve, arriving at a place not possible to reach without one another.”

Jordan Mould – Brand Director, Kirkby Design

ZIG ZAG BIRDS

A modern and unique interpretation of a houndstooth check; tessellated zigzags almost form the silhouettes of flying birds.

Available as fabric and wallcovering

MOONLIT PYRAMID

Moonlit reflective elements create a shimmering, graphic effect with an opulent metallic finish fit for the ancient pharaohs.

Available as fabric only

NUGGET MIRAGE

Shimmer and glitter fade in and out like a mirage in the galaxy.
This wallcovering will transport you to a starry fantasy land,
a scene of a fairy tale or a disco in the Milky Way.

Available as wallcovering only

ELECTRO MAZE

Inspired by the graphical beauty of a circuit board, the simplicity of linear elements and a maze-like, intricate composition bring classic modernity to this design.

Available as fabric and wallcovering

ORIGAMI ROCKETS & ROCKETINOS

The effect of multiple folded paper planes shooting across a surface is created by an arrangement of basic geometric shapes in deep, rich, colourful shades. Complexity and simplicity characterise the design that turns at every glance.

Available as fabric and wallcovering

PEG ART ROSES

Floral motif pushed to its limit. An abstract collection of coloured dots at close inspection, but from a distance the image transforms into a tableau of sweet smelling roses.

Available as fabric and wallcovering

LOOPY LINK

A softer take on a graphic pattern. Almost naïve freehand executions of broken oval patterns are teamed with sophisticated bicolours that sparkle with the warmth of yesteryears and polished modernity.

Available as fabric and wallcovering

SPOT ON WAVES

A bold expression of graphic pattern, this simple design of circles and half circles is almost a piece of modern art for your wall or furniture that can't help but make you smile.

Available as fabric and wallcovering

STRIPEY ZIG ZAG BIRDS

Zig Zag Birds is increased in scale and broken up into horizontal stripes, creating an op-camouflage effect with huge impact.

Available as fabric and wallcovering

GEM BLOCKS

Sparkles of cut precious stones shine through the gridded structure of the design. Teamed with neutral colours, the humour of trompe-l'œil is elevated to a modern sophistication.

Available as wallcovering only

DOMINO PYRAMID

Just as the shadows of the pyramids shorten and lengthen through the hours of the day, a cascading fall and rise effect is created through small changes in a rigid structure. This dynamic design combines the hard shell of architecture with the organic movement of light.

Available as fabric and wallcovering

CUBIC BUMPS

Cubic blocks of different heights are jam-packed to simulate buildings in a big city. The subtle tonal arrangement of colour brings calmness to the geo-cityscape and altogether manifests an urban serenity.

Available as fabric and wallcovering
