PROGRAM INFORMATION

NW 660

Colours for carcass and front

Colours for lacquer matt and high gloss

bianco taupe anthracite

Accents for frosted glass

(grey coloured areas in article list)

bianco taupe anthracite

Special colour for mediaboard

Lacquer metallic grey

The security of a brand

- extensive article list
- exceptional material thickness
- qualitatively excellent manufactured detail solutions suggest the highest quality
- push-to-open fittings
- full extensions as standard
- modern media solutions for new, larger Flat TV's
- continuous row of holes for shelves
- permanently protected surfaces
- optional LED-lighting with dimming function
- matching coffee tables, dining tables and cantilever chairs as well as useful nesting tables
- special designs on request
- drawings available

KEY:

SK = Drawer KL = Flap AZ = Deep Drawer Tür = Door

PROGRAMMINFORMATIONEN

Lack Hochglanz

Sie sehen es. Sie spüren es. Lack ist nicht gleich Lack. Hier lohnt es sich genauer hinzusehen. Unsere langjährige Erfahrung und eine innovative Fertigungs-Technologie sind hierbei Garanten für ein Lackvergnügen der ganz besonderen Art. Für die sanften und glatten Oberflächen unserer Möbel sorgen aufwändige Lackier- und Schleifverfahren. Diese Qualität sehen Sie besonders gut an der einzigartigen Tiefenwirkung. Traumhafter Hochglanz gepaart mit beindruckender Alltagstauglichkeit.

Mattlack

Darüber hinaus können Sie Ihre Möbel aber auch in der Ausführung "Mattlack" fertigen lassen. Auch hier werden die Oberflächen unserer Möbel in aufwändigen Lackier- und Schleifverfahren nach neuestem Stand der Technik aufgebaut. Deshalb wirken unsere Möbeloberflächen nicht nur perfekt, sondern auch wie aus einem Guss Und das auch noch nach Jahren.

Mattglas

Unser Mattglas wird durch eine spezielle Oberflächenveredelung satiniert. Somit werden unangenehme Spiegelungen vermieden, die angenehme Haptik des Glases jedoch bleibt erhalten. Der Farbton des Glases wird durch das Auftragen eines hoch widerstandsfähigen, deckenden Lackes auf der Glasunterseite erzeugt.

Lack Metallic grau für Medienboard

Eine überragende, optische Wirkung erzielen Sie mit unserer Sonderfarbe für Medienboarder "Lack Metallic grau". Hiermit schaffen sie eine extravagante Optik, die sich dennoch nicht aufdrängt.

Planung

Um Ihnen den Bestellvorgang so einfach wie möglich zu gestalten, haben wir unter jeder Type sämtliches Zubehör wie die LED-Beleuchtung, das Medienzubehör etc. aufgeführt. Für freie Planungen in Anlehnung an die Kombinationen (Seite 4 bis 24) finden Sie bei jeder Type einen Seitenverweis zu weiteren baugleichen Planungselementen.

Beschlagstechnologie

Die versteckten Verbindungsbeschläge, flach eingelassene Klappenscharniere und ein griffloser Push-to-open Öffnungsmechanismus, lassen die Beschlagstechnik entweder unsichtbar oder in hochwertigster Form erscheinen.

LED-Beleuchtung

Durch die hohe Energieeffizienzklasse (siehe Seite 47) unserer LED-Beleuchtung wird der Stromverbrauch und der CO₂-Ausstoß enorm gesenkt. Zudem besticht die LED-Beleuchtung durch einen hohen Wirkungsgrad und eine außergewöhnlich lange Lebensdauer. **Auf Wunsch können die flächenbündig verarbeiteten Mattglas-Akzente (in der Typenliste grau gekennzeichnet) durch LED-Lichtschienen effektiv illuminiert werden. In den Vitrinen werden LED-Schwenkspots, in den Regalen umrahmende LED-Lichtschienen verwendet.** Die Beleuchtung wird mit einer ausreichenden Anzahl an Trafos, incl. einem Schalter, geliefert. Diesbezüglich sollte dem Auftrag unbedingt eine Planungsskizze hinzugefügt werden. Optional kann die Beleuchtung per Funk-Dimmer gesteuert werden.

LED-Beleuchtungs-Set: gesamte LED-Ausstattung (Mattglas- sowie Rahmen-Beleuchtung) zur Beleuchtung des Möbels inkl. Trafo und Schalter.

LED-Mattglas-Beleuchtungs-Set: umfasst die LED-Ausstattung zur Beleuchtung der Mattglas-Flächen inkl. Trafo und Schalter.

LED-Rahmen-Beleuchtungs-Set: umfasst die LED-Ausstattung zur Beleuchtung der Regalrahmen inkl. Trafo und Schalter.

(siehe hierzu auch Seite 26)

Montagehinweis / Belastung

Das von **NW WÖSTMANN DESIGNMÖBEL** mitgelieferte Befestigungsmaterial ist ausschließlich für die Befestigung von Bauteilen an Beton und / oder festem Mauerwerk geeignet. Die Wandbeschaffenheit ist bei Auftragserfassung zu hinterfragen und spätestens vor der Montage unbedingt zu prüfen. Bei abweichender Beschaffenheit (z. B. Gipskarton oder Leichtbauwände) ist eine andere, der Belastung angemessene Befestigung, bauseits vorzunehmen.

- Max. Belastung von Holz- und Glas-E-Böden (bis 70 cm Breite) sowie Schubladen und Auszügen: 20 kg
- Max. Belastung von Holz- und Glas-E-Böden (ab 71 cm Breite) sowie Schubladen und Auszügen: 15 kg

Allgemeine wichtige Hinweise

- Alle von **NW WÖSTMANN DESIGNMÖBEL** verwandten Oberflächen sind schadstoffarm und entsprechen in ihrer Unbedenklichkeit der europäischen DIN-Norm EN 71 (Sicherheit für Kinderspielzeug).
- Raumklima: Holz ist ein natürlicher Werkstoff, der ständig Feuchtigkeit, je nach Feuchtigkeitsgehalt der Raumluft, aufnimmt und wieder abgibt. Ein ideales Raumklima für Mensch und Möbel besteht bei 19–23°C sowie bei 45–55% Luftfeuchtigkeit. Damit sich nichts verzieht oder Risse entstehen, sollte massives Holz möglichst geringen Raumluftschwankungen ausgesetzt werden. Besonders bei Neubauten ist auf die richtige Luftfeuchtigkeit zu achten und diese ggf. durch entsprechende Lüftung zu senken.

Auslieferungshinweis

Alle Elemente, mit Ausnahme der Regalelemente, sind komplett vormontiert - können aber vor Ort bei Bedarf zerlegt werden, da diese serienmäßig mit Excenter-Verbindungsbeschlägen ausgestattet sind.

Service

Qualität - das heißt für uns auch Service in Perfektion. Darum müssen Sie nicht "von der Stange" kaufen und somit faule Kompromisse eingehen. Besondere Maße – kein Problem. Wir finden immer eine Lösung, die Ihren Wünschen entspricht, denn Sonder- bzw. Einzelanfertigungen sind jederzeit möglich. Damit Sie sofort sehen, auf was Sie sich freuen können, entwickelt unser Skizzenservice gemeinsam mit Ihrem Einrichtungshaus den fertigen Plan Ihrer ganz persönlichen Zusammenstellung. Service ist unsere Spezialität – von Sonderanfertigungen über ständige Erreichbarkeit während der Öffnungszeiten im Handel bis zur perfekten Unterstützung bei der Planung.

In Ihren Verkaufszeiten bietet Ihnen unser Team jede Unterstützung

ACCESSORIES

Function of the IR-Repeater

The IR Repeater increase the transmitting range of IR remote controls into the internal space of the furniture. In this way it will be possible to operate electronic devices in closed furniture. The IR-commands of a remote control are caught by the lens of the IR Repeater and will be radiated by the diffusion lens into the internal space of the furniture.

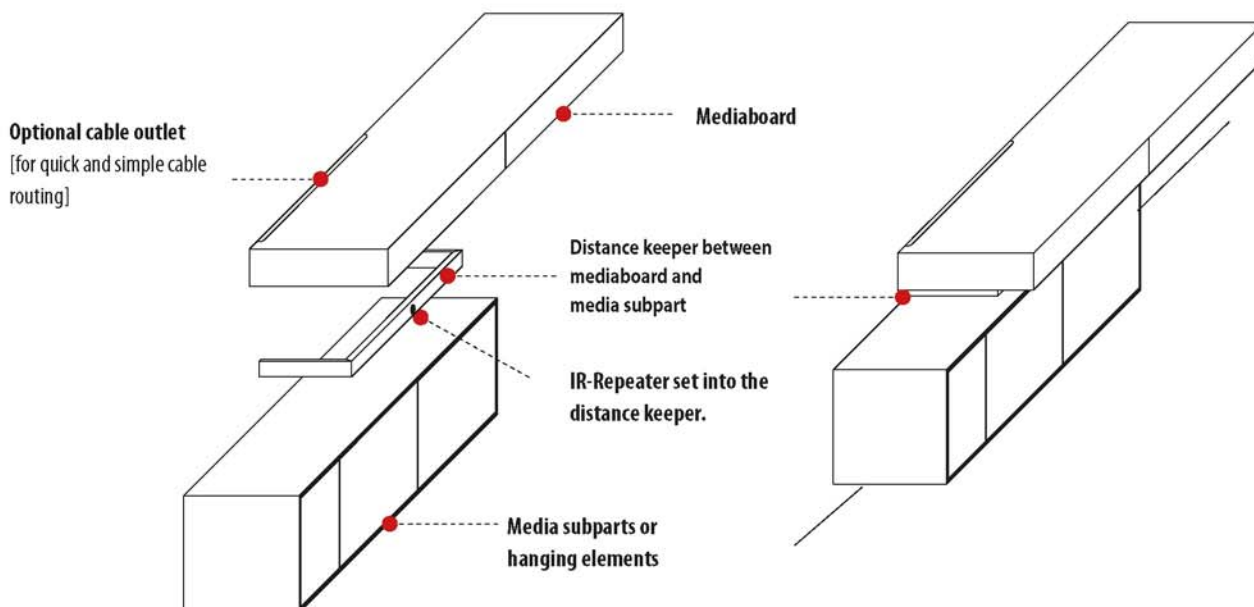

LED-lighting

Flash-mounted accents in matt glass (marked grey) can be illuminated effectively by LED-lighting rails. The lighting will be delivered with sufficient quantity of transformers (incl. a switch). It is therefore desirable to send a planning sketch with the order. Optionally, it is possible to control the light by a remote control dimmer.

INFORMATIONS CONCERNING MEDIABOARDS

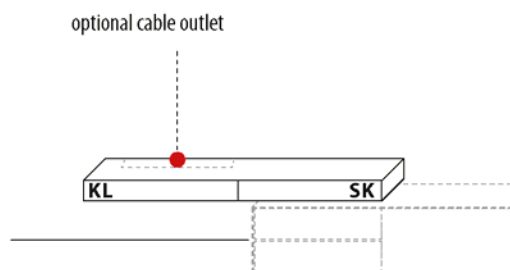

For static reasons, it is mandatory that mediaboards are stacked partly on a second element (z. B. media- or hanging elements for example). For optical reasons we would recommend to order a distance keeper.

The back panels of **mediaboards, media subparts and low-boards** are indented by **6,5cm**. You have the possibility to stow the cables and the power switch cleanly. Sideboards and hanging elements are excluded from this regulation.

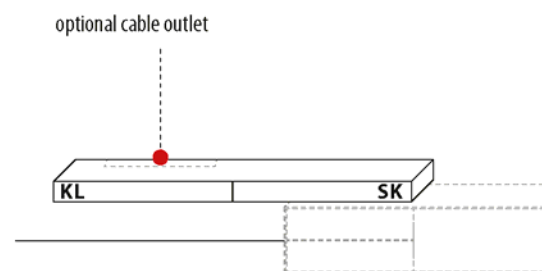

The fittings we will send you are exclusively suitable for the mounting of mediaboards to concrete and/or to solid stone. With proper installation, the load-bearing capacity is 80 kg. The rear panels are removable and have cut outs for cable routing.

MEDIABOARDS

W 192,0 cm x H 13,0 cm x D 48,0 cm

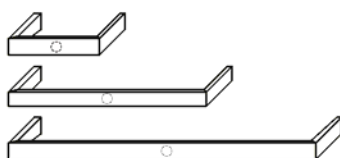

TYPE 10955 (Image)	Matt	£ 1.184,18
